

THE OUTDOORS MADE EASY

GAS HEATER RANGE

SCAN TO FIND
OUT MORE

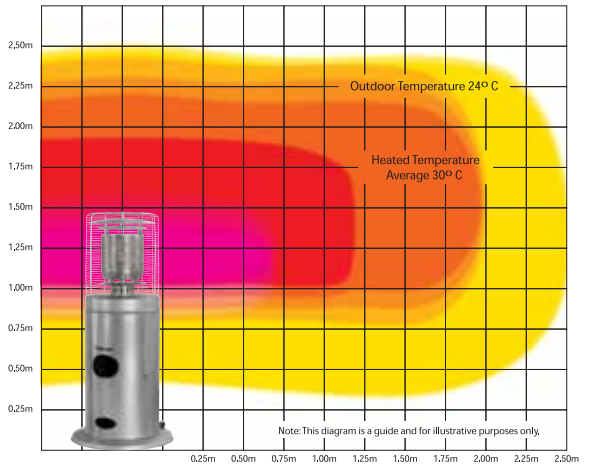

The introduction of Gasmate Gas Patio Heaters into the Australian market in 1999 was the catalyst in the creation of what we now term 'Al Fresco' living. When developing the range, Gasmate is always focused on engineering quality and energy efficient outdoor heating solutions.

Gasmate Gas Heaters extend the season of outdoor alfresco entertaining into the cooler months.

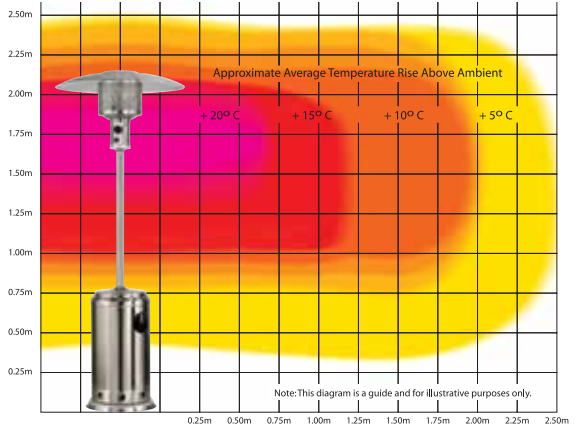

Heating coverage

These diagrams show the heating coverage of our patio, area, inferno and column heater range. Please note diagrams depicts heating on right hand side only, however heating is multi directional (circular) – therefore area to left / right / front / back and in-between receives same amount of heat.

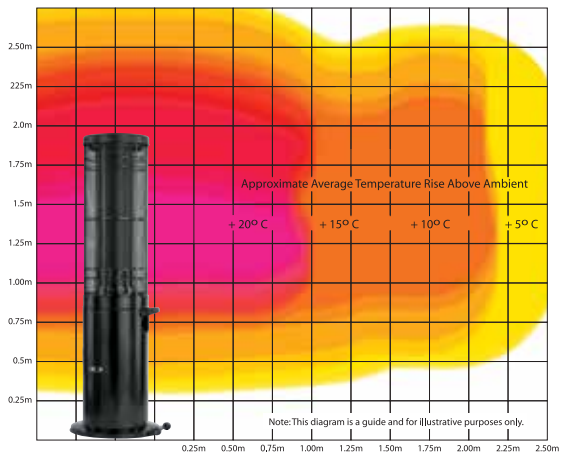

Area Heater Heating Coverage

Patio Heater Heating Coverage

Inferno and Column Heater Heating Coverage

Inferno heater features:

Add elegance and comfort to your patio or outdoor area

Stylish Gun Metal finish

Unique spiralling flame with powerful radiant heat output

Can be collapsed for convenient storage

Weather resistant dome prevents water from entering the combustion zone

Rotary direct ignition

Maximum output 36MJ/h

Adjustable heat output

Wheels allow for easy moving

Includes safety "tip over" switch that halts supply of gas to the unit should it be accidentally knocked over

Flame safeguard system for enhanced safety

Complete with hose and regulator

For outdoor use only

AGA certified

Inferno heater can be collapsed for convenient storage

MODEL No. FHN100

SPECIFICATIONS

FHN100

Height	1800mm
Height when collapsed for storage	1200mm
Width / Depth	515mm x 515mm
Maximum output	36MJ/h
Consumption (approx.)	12 hrs per 9Kg propane

Meridian Area heater series features:

A practical alternative to a Patio Heater where ceiling clearance may be an issue

Rotary direct ignition

Maximum output 40MJ/h

Adjustable heat output

Includes wheels for easy moving

Includes a safety 'tip-over' switch that halts supply of gas to the unit should it be accidentally knocked over

Flame safeguard system for enhanced safety

Complete with hose and regulator

For outdoor use only

AGA Certified

Models available:

MODEL No. AH2063

MODEL No. AH2069

SPECIFICATIONS	AH2063	AH2069
Finish	Charcoal hammertone	Stainless steel
Height	1350mm	1350mm
Width / Depth	540mm	540mm
Maximum output	40MJ/h	40MJ/h
Consumption (approx.)	9hrs per 9Kg propane	9hrs per 9Kg propane

Nova Patio heater series features:

Maximum output 40MJ/h

Piezo direct ignition

Adjustable heat output

Includes wheels

Operates for approximately
9 hours on a properly filled
9Kg propane cylinder

Includes a safety 'tip-over'
switch that halts supply of
gas to the unit should it be
accidentally knocked over

Flame safeguard system for
enhanced safety

Complete with hose
and regulator

For outdoor use only

AGA Certified

MODEL No. PH2063

MODEL No. PH2069

SPECIFICATIONS	PH2063	PH2069
Finish	Charcoal Hammertone	Stainless steel
Height	2130mm	2130mm
Width / Depth	813mm sectional reflector	813mm sectional reflector
Maximum output	40MJ/h	40MJ/h
Consumption (approx.)	9hrs per 9Kg propane	9hrs per 9Kg propane

Column heater features:

Stylish design
Maximum output 35MJ/h
Adjustable heat output
Long running times – Operates for approximately 10 hours on a properly filled 9Kg propane cylinder
Includes a safety 'tip-over' switch that halts supply of gas to the unit should it be accidentally knocked over

Flame safeguard system for enhanced safety
Door opening enables easy access to cylinder
Wheels to make moving column heater easy
Complete with hose and regulator
For outdoor use only
AGA Certified

MODEL No. CH205MB

SPECIFICATIONS	CH205MB
Finish	Black powder coated
Height	1780mm
Width / Depth	540mm
Maximum output	35MJ/h
Consumption (approx.)	10hrs per 9Kg propane

Radiant ceramic heater series features:

Approved for non residential indoor use and domestic outdoor use

Direct Ignition

Emits infrared heat*

Heat surfaces not just air

Consistent heat

Includes heat shield

Operates for approximately 10hrs (5 Tile) & 15 hrs (3 Tile) on a properly filled 9kg propane cylinder

Complete with hose and regulator (propane models)

AGA Certified

Natural gas models include regulator only

* Gasmate Infrared Heating : Infrared heating is an efficient way of heating, particularly for outdoors as infrared heats people and nearby objects, not the air or empty spaces. This means that the heat does not get blown away by wind.

MODEL No. RH1039

Model shown mounted onto stand (sold separately)

SPECIFICATIONS (3 Tile Radiant Heater)	RH1039 Propane	RH1139 Natural Gas
Finish	#201 Stainless steel	#201 Stainless steel
Height	Wall mount	Wall mount
Consumption	20MJ/h	20MJ/h
Running Time*	Approx 15 hrs	N/A
Operating Pressure	2.75 kPa	1 kPa
Injector Size	0.7 mm	1.18 mm
Heating Area (m ²) (Approx.)	3m ²	3m ²

Models available:

3 TILE RADIANT CERAMIC HEATER

MODEL No. RH1039

MODEL No. RH1139 (NATURAL GAS)

5 TILE RADIANT CERAMIC HEATER

MODEL No. RH1059

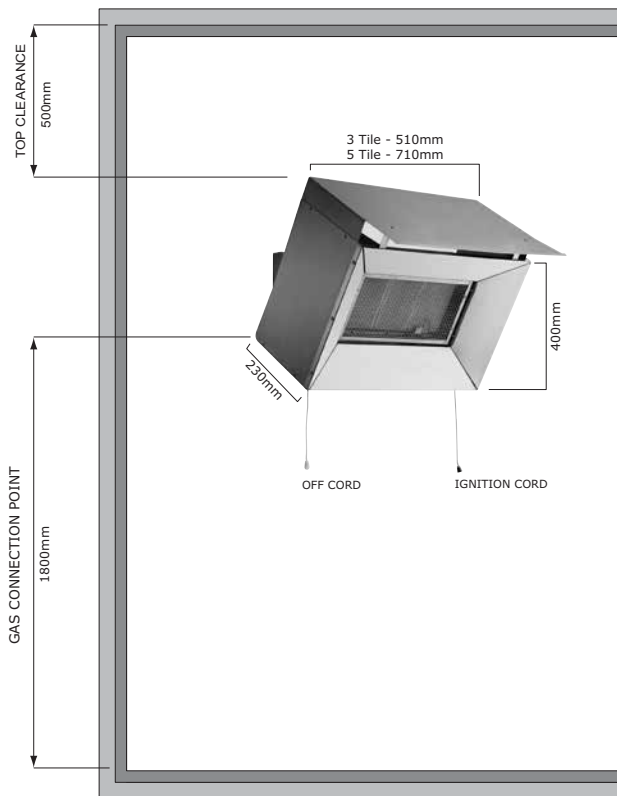

MODEL No. RH1159 (NATURAL GAS)

STAND

MODEL No. RH1000 (OPTIONAL ACCESSORY)

Color: Charcoal

Height: 2100mm

RADIANT TILE HEATER

For Outdoor Use Only

Minimum Clearance from
Combustible Surfaces*:

*Combustible materials are considered to be wood, compressed paper, plant fibres, plastic or other materials that are capable of being ignited and burned.

SPECIFICATIONS (5 Tile Radiant Heater)	RH1059 Propane	RH1159 Natural Gas
Finish	#201 Stainless steel	#201 Stainless steel
Height	Wall mount	Wall mount
Consumption	33MJ/h	33MJ/h
Running Time*	Approx 10 hrs	N/A
Operating Pressure	2.75 kPa	1 kPa
Injector Size	0.7 mm	1.18 mm
Heating Area (m ²) (Approx.)	4m ²	4m ²

*Running time is calculated based on a properly filled 9kg propane cylinder

accessories

MODEL No. PA100

PATIO HEATER GLASS TABLE

Suitable for most outdoor patio heaters

600mm diameter table attaches to patio heater pole

Adjustable clamp to suit 38-78mm diameter pole (Australian Registered Design)

Clamp made of durable steel

Adjustable height positioning allows for standing or sitting around table

Table can hold up to 10Kg

MODEL No. CPHD

PATIO HEATER COVER

Top: 940mm diameter

Bottom: 240mm diameter

Height: 650mm

With zipper and two rods for easy fitting and Velcro tab for secure fit

MODEL No. CAHU

UNIVERSAL AREA HEATER COVER

Top: 530mm diameter

Bottom: 390mm diameter

Height: 500mm
