- Easy to light
- Environmentally friendly
- Non-toxic
- 24 snap-off blocks per pack

FUEL STOVE MAINTENANCE PRODUCTS

By Rubbed in

SOOT-LOOSE CHIMNEY & FLUE CLEANER

Rubbedin
Soot-Loose is
based on a non-

flammable, non-toxic, non-corrosive organic solvent which travels up the chimney/flue and dissolves tar and creosote. With regular use Soot-Loose will prevent the build-up of tar, creosote and soot in your chimney/flue, thus increasing the efficiency of your heater, reducing smoke emissions, and prevents dangerous flue fires. Unlike salt based flue cleaners Soot-Loose will not corrode stainless steel flues.

50g sachets, 3 x 50g sachet box, and 250g tins

HOT GLASS CLEANER

Rubbedin Hot Glass Cleaner has been designed to make light work of the stubborn soot, tar and creosote that accumulates on your wood heater glass. With continued use it

will reduce the build up of stains on your glass thereby making it easier to maintain. Hot Glass Cleaner is very easy to use, non hazardous and non-toxic It is also excellent at removing stubborn grease and food spills from combustion stove tops, oven and microwave doors, ceramic glass cooktops, and porcelain enamel.

200ml bottles.

CAST IRON STOVE POLISH

Rubbedin Cast Iron Stove Polish has been designed to restore that brand new, black satin finish to your cast iron stove and provide ongoing protection against flaking, rusting and pitting.

200ml bottles.

HI-TEMPERATURE POT-BELLY BLACK

Rubbedin High
Temperature Pot-Belly
Black is a high quality heat
resistant coating designed
to stop rust and restore that
brand new, satin black

finish to your potbelly stove, barbecue, oven, heater, flue and any other metal parts that are subject to heat. It is scientifically formulated to withstand heat up to 500°C and "NO PRIMER NEEDED."
250ml, 500ml tins and 350g spray cans.

HOT SPOT REDI-MORTAR

Rubbedin Hot Spot Redi-Mortar
is a heat resistant, sandstone
coloured, ready-to-use mortar
Because it can withstand heat

up to 1400°C it's ideal for use in installing and repairing fireplaces, chimneys, fuel stoves and barbecues. It is pre-mixed, simple to use, and air dries in 24 hours.

500g, 1 kg, 4kg, 35kg

BLACK PATCH STOVE PUTTY

Rubbedin black patch stove
putty is a black coloured
putty that resists heat
up to 1400°C It is ideal

for installing fibreglass rope or repairing fireplaces, chimneys/flues, fuel stoves and barbecues. It is pre-mixed, simple to use and air dries in 24 hours.

500g, 1 kg.

INSTANT BRICK

Rubbedin Instant Brick is a
heat resistant firebrick mix
specifically designed for
replacing and/ or repairing
fireplace bricks. It can with-

stand temperatures of up to 1000°C. It's simple to use, just add water, then dries overnight
4kg. tubs/pails.

WOOD HEATER STARTER KIT

INCLUDES:

- Wood Sling
Easily carry wood and kindling to your wood heater.
Folds when not in use. Black woven polyester.
- Sureburn Firelighters - 24 Snap-off block
All natural - Quick to light - No smell - Waterproof.
Made in Australia.
- Soot Loose - 2 x 50g sachets
With regular use Soot-Loose will prevent the build-up of tar, creosote and soot in your chimney/flue.
Made in Australia.
- Woodheater Door Glass Cleaner - 2 pack
Fast effective dry cleaning - use without using any extra cleaning agent.
Made in Germany.

Part No. WHSTKT

Digital Moisture Meter

Part No. DGMMTR

- Built-in Auto Power Off
- Electrode Pins - Integrated
- Display Wood Moisture LED
- 4 Calibrated wood group selections
- Measurement Principle - Electrical Resistance

Leather Fire/Flame Resistant Gauntlets - Pair

Part No. LEFIGA

- 400mm long
- Fully Lined
- Kevlar Thread Sewn
- Yellow - Fully welded seams

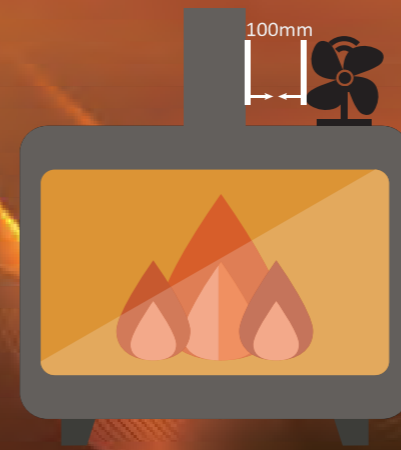

Heat Powered

Radiant Wood Heater Fan

- Fast starting temperature as low as 50°C
- Maximizes heat, with possible fuel savings
- Self-powered by heat, no running costs
- Quiet operation
- Suitable for any radiant wood heaters/wood stoves.

For Warm Homes

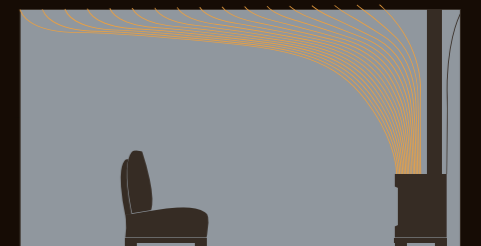

Minimum 100mm away from heater/stove flue if possible
 Keep away from heat vents on heater/stove top if any
 Do not position in front of chimney/flue

- Increases efficiency, circulates warm air throughout the room
- Creates its own electricity, no running cost
- Fast starting at temperature as low as 50°C
- Maximum operating temperature 350°C
- Optimum operating temperature: 80~250°C
- Maximum air flow: blows up to 100m/minute
- Running RPM:>900 RPM
- May reduce emissions by burning less fuel
- Inbuilt protection system to stop the fan overheating
- Quiet operation, the noise<25db
- Easy to install, place on a flat surface, 100mm away from flue
- Suitable for any radiant wood heater/wood stove.

INFORMATION

OFGTCNRLGMSH-2 Corner Child Guard LARGE

Note:

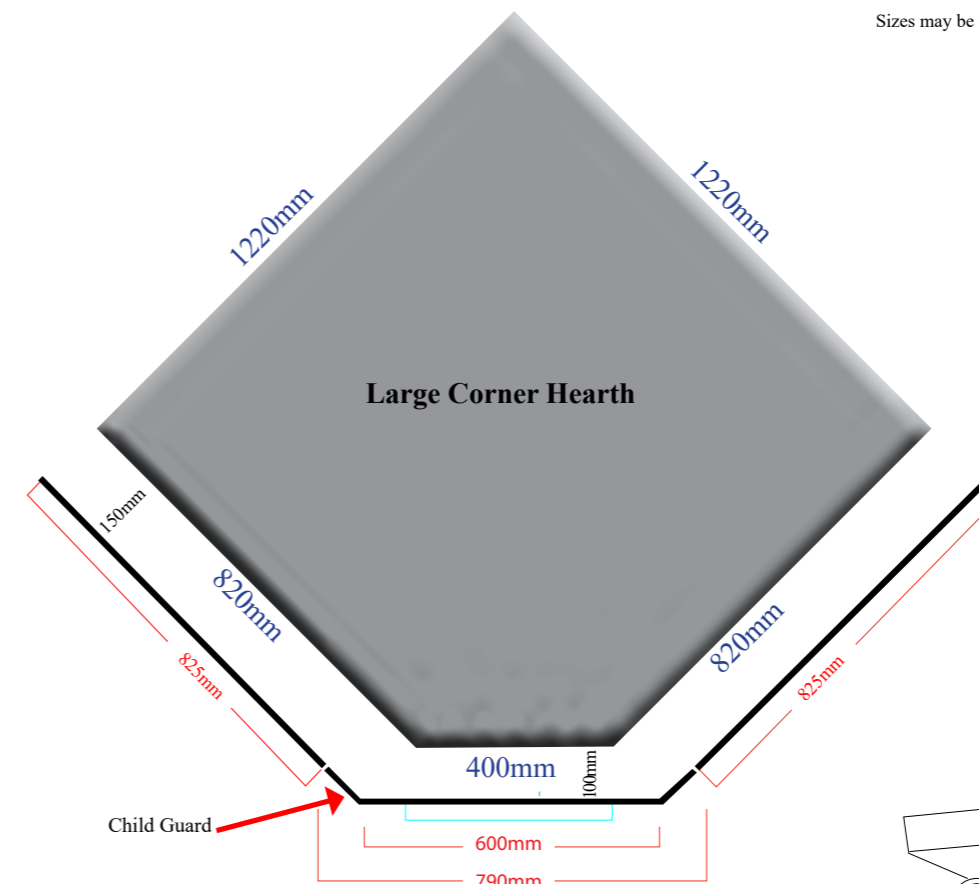

The positioning of the Child Guard around the hearth may vary depending on:

1. If there is a skirting board around the wall.
2. Fitting of wall brackets. (see extra information on wall bracket fitting, below.)
3. Squareness of the walls. If the walls in the corner are out of square and the hearth is fitted to one wall the measurements around the hearth will vary.

Dimensions are in mm

Sizes may be + or -

Large Corner Hearth

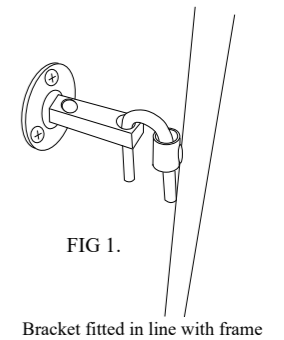

FIG 1.

Bracket fitted in line with frame

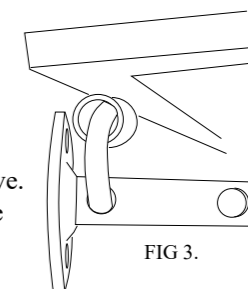

FIG 3.
Bracket fitted inside frame using alternative hole

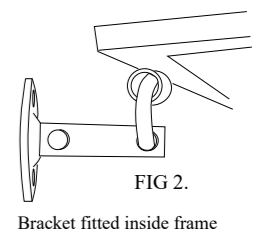

FIG 2.
Bracket fitted inside frame

Wall Mount Positioning:

The wall bracket may have to be fitted depending on the scenario mentioned above.

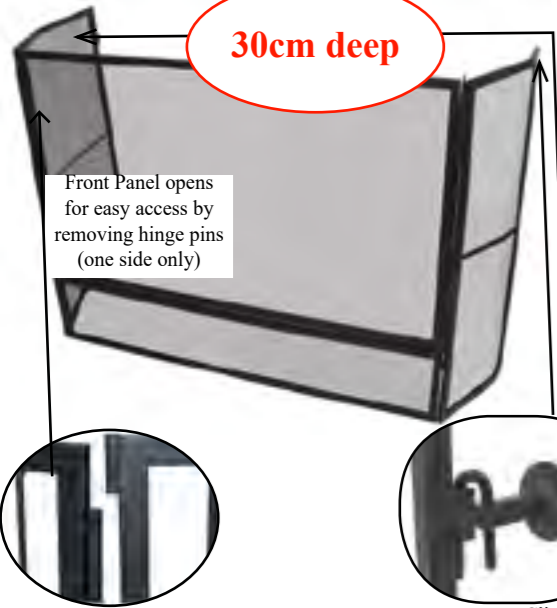

1. Fitted to the wall directly in line with the frame (Fig 1.)- Allow 55mm from the wall
2. Fitted to the wall inside the frame (Fig 2.)- Allow 30- 40mm from the wall
3. Fitted to the wall inside the frame using alternative hole (Fig3)
- Allow 15mm from the wall

Mesh Child Guards with Gate

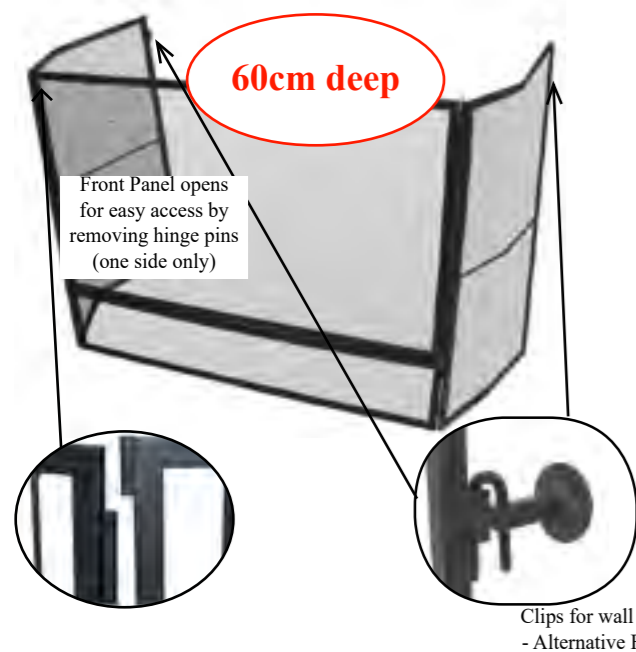

Heavy Duty Mesh fitted between main frame and welded strip at rear - on all 4 guards on this page.

Part No. OFGTIBMSH-2
Mesh Child Guard With Gate
For Inbuilt Heater

- Size - 125cm x 30cm deep x 80cm high.
- Frame - 12 X 25mm rectangular tubular steel
- Mesh - fitted in each panel
- Weight: 9.0kg

Part No. OFGTIBLGMSH-2

Suits Inbuilt Heaters with 50cm deep Hearths

- Size - 125cm x 60cm deep x 80cm high.
- Frame - 12 x 25mm rectangular tubular steel
- Mesh - fitted in each panel
- Weight: 10.3kg

INFORMATION

OFGTIBLGMSH In Built Child Guard - LARGE

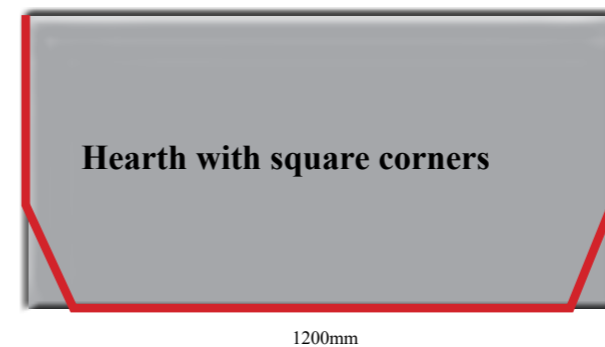

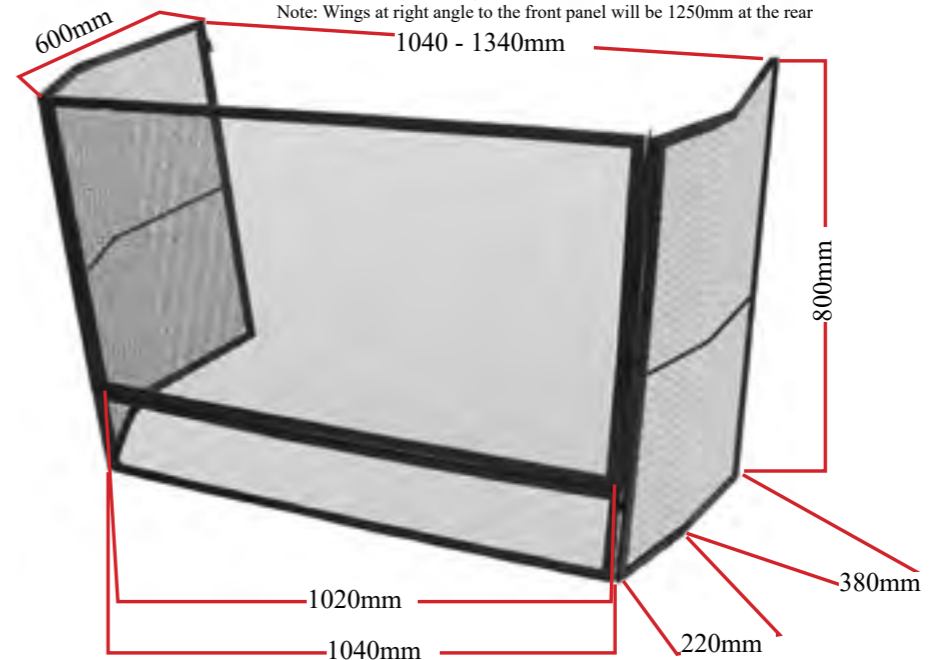

Note:

The positioning of the Child Guard around the hearth may vary depending on:

1. If there is a skirting board around the wall.
2. Fitting of wall brackets. (see extra information on wall bracket fitting, below.)
3. Squareness of the walls. If the walls in the corner are out of square and the hearth is fitted to one wall the measurements around the hearth will vary.

Because the wings are hinged - you can alter the measurements at the rear
 Note: Wings at right angle to the front panel will be 1250mm at the rear

Represents Child Guard

9 325086 015757

Distance (D) to Spot Size (S)
D:S=12:1

Product category	Infrared Thermometer
Accuracy	≥100°C, ±2% / ≤100°C, ±2°C
Response time	0.5S
Emissivity	Adjustable, 0.1 to 1.0
Distance to spot ratio	12:1
Storage temperature	-20 to 50°C(-4~122°F)
Operating temperature	0 to 50°C(32~122°F)
Power/Power life	2-AAA batteries/about 9 hours <i>Not Included</i>

Flaming Magic™

Available in
30g and 50g
Packs

Display Box of 50

Throw 1,2 or 3 sachets of Flaming Magic sachets into any wood burning fire. Enjoy the colours that Flaming Magic will produce. 3 sachets will give the best results. Add more sachets as colourful flames disappear. 3 x 30g sachets should last approx 30 minutes plus, subject to the conditions of the fire. For bonfires use the 50g sachets.
